

- ▶ **1** 12-hour display mode    **2** 24-hour display mode
- 3** Time setting mode (indication blinking)
- 4** Alarm setting mode (indication blinking)

The digital clock indicates the time with the ignition key at the "ACC" or "ON" position. The mode can be changed by pushing the "CLOCK" button on the audio control panel.

With the tail lights on, the brightness of the time indication will be reduced.

If the electrical power source has been disconnected from the clock, the time display will automatically be set to 1:00 (one o'clock).
